terday, showing that a large part of the arrivals were going into store. Kansas City had large receipts also, that market reporting 262,560 bu., against 75,000 bu. a year ago. These heavy receipts under ordinary circumstances would have brought about a sharp break in prices, but as they were opposed by some strong conditions abroad that the contrary took place. The situation just the contrary took place. The situation abroad, and especially in the United Kingabroad, and especially in the Chiced King-dom, was considerably wrought up over the bad barvesting weather, a condition plainly reflected by the cables, these noting an advance since last Friday's close of 1%d at Liverpool, which is equivalent to 1%c per but, that market also being up 1611gd for but, that market also being up 1911-d for cash, and London reported cargoes held 24 higher. These bullish cables naturally brought out good buyers, the only sellers, in fact, being profit-taking longs, but as the seaboard also reported good buying for foreigners, and Chicago advised of heavy purchasing, prices here were well maintained for some time after the market opened.

maintained for some time after the market opened.

The opening here for Sept, was most encouraging, being sic higher than it closed yesterday, at 7-3c, and then sold at 72-3c, while Dec. sold at 3-5c/3c hisher, at 75-3c. Late cables did not hood up as they started out, even Liverpool casing on a little, and closing 13-d advance for the day, and, with the exception of Buda-Pesth. Continental markets were disappointing, Berlin was 3-c lower, and Faris from 5c hisher to that much lower, while in the case of Euda-Pesth that market was 24c higher for some unexplained reason, but thought to be owing to the weather. The expert clearances were smail, at 164,000 bu. As bearish as the above were, they had no mate ial effect upon values, which were upheld by the strength in corn, and the good foreign buying at the seaboard. Indeed, so strong was our market that at one time Sept, bulged to 73c and Lec, to 75-26-6c, but as speculation became extremely dull and feature-less, a weaker feeling developed and prices began to go back. Bradstreets figures received late in the day were bearish, they showing 1476,000 bu. increase in the world's visible, against 1,257,000 bu decrease a year ago, while stocks east of the Rockies were increased 1,776,000 bu. increase in the world's visible. There was some selling on this, and as speculation was dull, prices let down, Sept. going to 724@kc and Dec. to 75-9c. Later, the market railied on reports that the carloads had been taken for export at the seaboard, 186,000 bu. at Chicago and 400,000 bu. at Chicago and 400,000 bu. at Chicago and 400,000 bu. at Chicago and The opening here for Sept, was most en-

Trade Gossip.

In a letter dated July 27 to J. H. Teasdale & Co., house of F. Lenders & Co., speak of intensely hot weather prevailing all over the United Kingdom and greater part of Western Europe. This, while hastening the harvest period, was expected to lower the quality or probably the quantity of wheat, more particularly in France, where the plant not so hardy as that of England. They also speak of the paucity of first-hand offerings, as Russia upparedly gill not feel tempted to sell under the partity of 50s (90c per bu.) and the new Dannoe wheat finds purchasers in Mediterranean markets at 28 (6c per bu.) above the price obtainable in the United Kingdom.

Griffith, Williams & Co. of Liverpool, on July 28, wrote Dickson Cunningham that the excessive heat, it was feared, would scorch the wheat crop of Northern France. They give the estimates of French trade publications, the Echo Agricole placing the crop at 201,00,000 hu, against 36,000,000 bu, last year; the Marche Francais's estimate is 281,500,000 bu, which nearly 40,000,000 bu, less than its own estimate issued twelve days before, and the Bulletin des Halles says the crop will be 280,000,000 bu. Germany has participated in the extreme heat and rye will inevitably be much smaller than last year.

—Wheat receipts at the primary markets to-Cay were \$62,000 bu, against \$81,000 bu, two years ago. At the four winter wheat points 574,000 bu. In. against 424,000 bu, one week ago, 20,000 bu, a year ago, \$17,000 bu, two years ago. At the four winter wheat points 574,000 bu. In. against 624,000 bu, one week ago, and 384,000 bu, one week ago, at the confiner wheat points 574,000 bu. In. against 624,000 bu, one week ago, at the four winter wheat points 574,000 bu. Ye a bu, higher, Antwerp was unchanged, A Liverpool message said: "Weather very bad; matter serious; crop prospects badly impaired," and a London cable said: "Weather very unfayorable; markets advancing, with heavy transactions; incessant

by rain and the harvesting of wheat in England interfered with from the same cause, they sought relief from their disappointment by buying wheat; and that advanced its price, as compared with last Friday's figures, by from 1d to 12 d for futures and of cash wheat the equivalent of from let to 2 d for a bu. That was a welcomed assistance to the bulls in the local market, who forthwith, in the fullness of their spirits, got their horns under the previous day's closing figures and gave them a preliminary let a bu, loss, fleshes, the strength of the Liverpool market, news of crops from the Pacific Const was unpropitious. A telegram from a Seattle, Wash, firm was received by a Chicago house, asking the latter to name a price, delivered there, for 2,000 tons of they given that indication of the effect upon hay of the dry weather on the Western side of the Rockies, corroboration to the news coming recently to hand of disappointment in the yield of wheat on the Pacific colors.

Corn.

Corn.

Corn.

Corn.

Stockers and feelers topped at \$1.35, buch at \$1.55, buch stock strests and teatry found a very dull demand, and values figured 25c to 40c flower than the close of last week on all but the very best kinds. It took strictly top veal calves to bring \$5.50 per 100 lbs., and bulls and mich cases held steady.

Sales included beef steers, 1,200 to 1.158 lbs., at \$2.50 to \$4.50 balls at \$2.30 to \$2.35 to \$4.55 balls at by rain and the harvesting of wheat in England interfered with from the same cause, they sought relief from their disap-

Corn.

Corn was strong for Sept. delivery, although there was only the attenuated ghost of the former excellent shipping demand. C. I. f. brokers said the seaboard bids were, for the most part, much out of line. Only 45,000 bu, were said to have been worked. Local receipts were only 210 cars, and the shipments hence were \$\text{\text{\sigma}}(0.00)\$ bu. The receipts for to-morrow were estimated at 155 cars. Scaboard clearances were 216,000 bu. celpts for to-morrow were estimated at 155 cars. Scaboard clearances were 216,000 bu., and New York reported 36 beatloads fresh business for export. Laverpool futures and spot corn were up 12d a cental. The primary receipts at Western points were 261,000 bu., as against 653,000 bu. last year. Sept. corn opened at from 35½ to 35½c. sold as high as 35½,255%c and closed at 35½,235%c.

Outs were firm and closed ½c above the final figures of the day before. Shipping demand was good and outs meal manufacturers were also good buyers, while the san-

Representative sales:

graphic communication to Bradstreet's show the following changes in available supplies from the last account: Wheat—United States and Cauada, east of Rockles, increased 1.75,000 bit, affoat for and in Europe decreased 300,000 bit. Total supply increased, 1.475,000, Corn—United States and Canada east of Rockles decreased 25,000 bit. The leading increases reported excinsively to Bradstreet's are those of 255,000 bit. at Chicago private elevators, 218,000 bit. at Louisville, 65,000 bit. at Fulton, and 55,000 bit. each at Fort Worth and Chattanogu. The leading decreases include 135,000 bit. at Cotenu, 84,000 bit. at St. Joseph and 25,000 bit. at East St. Louis. Stock of wheat at Fortland, Ore, and Tacoma and Seattle decreased 58,000 bit. last week. THE COTTON MARKETS. Unfavorable Weekly Report, but Spec-ulative Prices Advanced. St. Louis, Tuesday, Aug. 7, 1900.

The speculative cotton market on this side advanced to the surprise of the trade on the somewhat unfavorable weekly Government report, which showed the condition of the crop to be which showed the condition of the crop to be somewhat less in some places than it had been. He by short covering was the chief reason, and August advanced 13 points, and other months 19 to 12 points. Previous to the receipt of this report there was selling sufficient to break the market 5 to 8 points, but the issuing of the report changed the whole situation, and there was no check to the advance until the last hour, when profit taking caused a small set-lack, but the close was right at the top and 15 to 18 points higher for the day. Liverpool was unchanged for spots, but 2½ to 5½ points off for futures.

was unchanged for spots, but 2½ to 5½ points off for futures.

The Department of Agriculture's weekly report on the condition of the cotton crop was issued to-day, and says that the condition of the crop, while improved in the Carolinas, shows less promise in the States of Georgia, Florida and Louislams. There are compilaints or rust, shedding and premature opening in Texas. The crop is everywhere from two to three weeks late. hate.

In the northern sections the progress of the crop has been favorable, but the complaints of rank growth, shedding and the ravages of insects are revived from the southern parts.

Local Market-Duil and 1-15c lower. No sales, or the sales of the sales of the southern parts.
